Monitoring Software that is powerful,
simple and cost effective

The BeAware Advantage.

Unlike some employee monitoring programs that make your job more complicated, BeAware gives your company the best of all worlds: Top-notch features and simple-to-use technology - with a substantial return on investment.

Maximize your team's effectiveness.

Keeping an entire team of employees' focused and on track is a challenge, especially when they have computers with Internet access. In fact, the average employee wastes over 2 hours a day at work - but it doesn't have to be that way.

BeAware Corporate Edition Highlights:

Real-time employee monitoring. Managers can view web surfing, emails, chats, program usage, and much more.

Remarkably simple to install. Even easier for managers to use.

Detailed reports that help managers find problems quickly and easily.

Designed for any size workgroup (1 to 10,000 employees).

Managers can see employee activity anytime, from anywhere.

Optional "private time" feature that allows employees' to take care of personal business during approved time (great for lunch breaks).

Track employees' who work at other company sites or on the road.

Works with - and goes far beyond - the protection of your firewall to provide a complete solution to your organization's monitoring needs.

Boost your productivity today.

Everyone knows that wasted time and wasted efforts have a negative affect on goals, team morale, and the bottom line. With BeAware you can unleash the full potential of your employees, reward top achievers, and stop the distractions that hold your team back.

To summarize, we are dedicated to helping you grow your business while providing the tools to protect your assets and increase employee productivity.
